- ▶ Easy installation with included mounting hardware
- ▶ Durable construction for long-lasting performance
- ▶ Available in multiple quantities for large-scale installations
- ▶ Available in multiple finishes to match your decor
- ▶ Available in multiple quantities for large-scale installations

### Applications:

The JBL Control 62P is an ultra-compact mid-high satellite speaker designed for professional audio environments. Its small size and clear sound make it ideal for use in conference rooms, classrooms, and other spaces where a high-quality audio system is needed without taking up too much space. The speaker is available in multiple finishes, including black, silver, and chrome, to match a variety of interior designs. Installation is simple and straightforward, thanks to the included mounting hardware. The Control 62P is also available in multiple quantities, making it a great choice for large-scale installations. Whether you're looking for a single speaker or a full system, the Control 62P is the perfect solution for your needs.
